## Net Interest Income and Net Interest Margin

The Company's second quarter 2021 net interest income increased $\$ 1.18$ million or $18.71 \%$ as compared with the quarter ending June 30, 2020 and $\$ 639$ thousand or $9.31 \%$, compared with the quarter ending March 31, 2021. The increase from the same period a year ago was driven by higher investment income, income generated by a $\$ 25$ million consumer loan purchase, and increased revenue recognition from the Paycheck Protection Program (PPP) loans. The increase over the trailing quarter was primarily driven by income generated by the $\$ 25$ million consumer loan purchase, and by higher investment income.

The Company's net interest margin decreased by 11 basis points (bps) or $3.01 \%$ when compared to the quarter ending June 30, 2020, and was generally flat relative to the quarter ending March 31, 2021. The 11 bps decrease compared to the same period a year ago was driven by the Company's rate and mix of its earning assets.

In general terms, prepaying and repricing higher yielding loans have been substantially replaced and supplemented with lower yielding investment securities purchased in the current year. The negative impact has been partially offset by higher yields resulting from fee recognition on PPP loan forgiveness, and to a lesser extent, the impact of the higher yielding consumer loans purchased during the recent quarter.

## Provision for Loan Losses

The Company did not make any provisions for loan losses in the quarter ending June 30, 2021, as compared to $\$ 650$ thousand and $\$ 0$ in the quarter ending June 30, 2020, and March 31, 2021, respectively. Uncertainty surrounding COVID-19, and the potential negative impact on our clients and asset quality dictated the provisions made in the same period a year ago. Improving economic conditions and diminished concern with the Company's asset quality eliminated the need for any additional loan loss provisions for the previous sequential four quarters.

## Noninterest Expenses

The Company's second quarter 2021 non-interest expenses increased $\$ 1.03$ million, or $26.1 \%$, to $\$ 4.99$ million in the second quarter of 2021, compared to $\$ 3.95$ million for the second quarter of 2020, and increased $\$ 68$ thousand, or $1.4 \%$, compared to $\$ 4.92$ million recognized in the first quarter of 2021.

The increase, as compared to the prior year comparative period is centered in salaries and benefits. In regards to the same period ending June 30, 2020, the addition of 11 employees, including a team of Relationship Managers in our San Luis Obispo market, and the opening of our Santa Cruz branch largely accounted for the increased level. In addition, severance costs associated with the departure of two senior officers materially contributed to the comparative period increase. Absent the severance costs, the Company's Efficiency Ratio would have been reported at $62.33 \%$ for the three months ended June 30, 2021.

## Balance Sheet Summary

The Company's total assets increased $\$ 76.2$ million or $8.72 \%$ to $\$ 950.7$ million as compared to $\$ 874.5$ million at March 31, 2021.

Total loans outstanding were $\$ 608.1$ million as of June 30,2021 . This represents an $\$ 16.1$ million decrease or $2.58 \%$ from the June 30,2020 outstanding balance of $\$ 624.2$ million. The decrease in loan level reflected payoff activity in the purchased residential loan portfolio and PPP loan forgiveness, offset by higher originated commercial real estate core loans, and the purchase of a $\$ 25$ million consumer loan pool on May 12, 2021.

The pool purchase represents approximately 1,600 unsecured personal loans, primarily debt consolidation, with an average FICO of 709, an average interest rate of approximately $16 \%$, and an average remaining life of approximately 40 months.

PPP loans outstanding were $\$ 84.9$ million as of June 30,2021 , and included a deferred fee balance of $\$ 2.2$ million. At June 30, 2020, PPP loans outstanding were $\$ 100.7$ million and included a deferred fee balance of $\$ 2.8$ million.

The investment portfolio increased $\$ 202.1$ million to $\$ 264.6$ million from an outstanding balance of $\$ 62.5$ million as of June 30,2020 . Incoming cashflows from deposit growth and prepaying earning assets were significantly deployed in bonds. The majority of the investments were made in mortgagebacked securities, floating rate securities, and municipal securities.

Total deposits were $\$ 853.6$ million as of June 30, 2021. This represents a $\$ 202.8$ million increase or $31.16 \%$ from June 30,2020 outstanding balance of $\$ 650.8$ million. A significant portion of this growth was associated with PPP loan proceeds deposited with the Bank. Growth in noninterest-bearing demand deposit accounts accounted $\$ 69.1$ million or $34.07 \%$ of the total deposit growth over the 12 months ending on June 30, 2021. The balance of the deposit growth was distributed among interestbearing deposit accounts with the exception of time deposits which decreased by approximately $\$ 5.3$ million to $\$ 13.8$ million.

During the quarter, the Company completed a private placement of $\$ 15$ million in fixed-to-floating rate subordinated notes due June 30, 2031 to certain qualified buyers and accredited investors. The notes carry a fixed rate of $4.0 \%$ until June 30,2026 . Thereafter, the notes will pay interest at a floating rate, reset quarterly, equal to the then current three-month SOFR plus 339 basis points. The subordinated notes are redeemable by the Company at its option, in whole or in part, on or after June 30, 2026. The Company intends to use the net proceeds to support organic growth and for general corporate purposes.

## Asset Quality

At June 30, 2021, non-performing assets were $0.23 \%$ of the Company's total assets, compared with $0.35 \%$ at March 31, 2021. At June 30, 2021, the allowance for loan losses was $1.46 \%$ of outstanding loans, compared to $1.43 \%$ at March 31, 2021. The Bank recorded net recoveries of $\$ 12$ thousand in each of the two quarters of 2021.

As of June 30, 2021, the Company does not have any outstanding loan deferments or forbearances stemming from COVID-19.
